

Huddly[®] C1[™]

Quick start guide

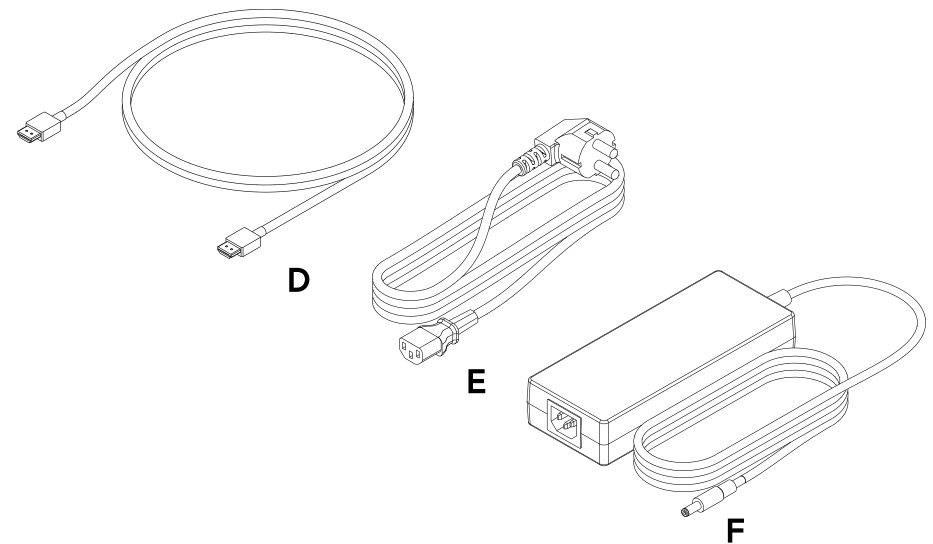

For detailed instructions, view the full setup guide: huddly.com/setup/c1/

1. What's in the box

- A** Huddly C1
- B** Wall Mount (incl. Mounting Template)
- C** One-Way USB-C Cable, 5 m / 16.4'

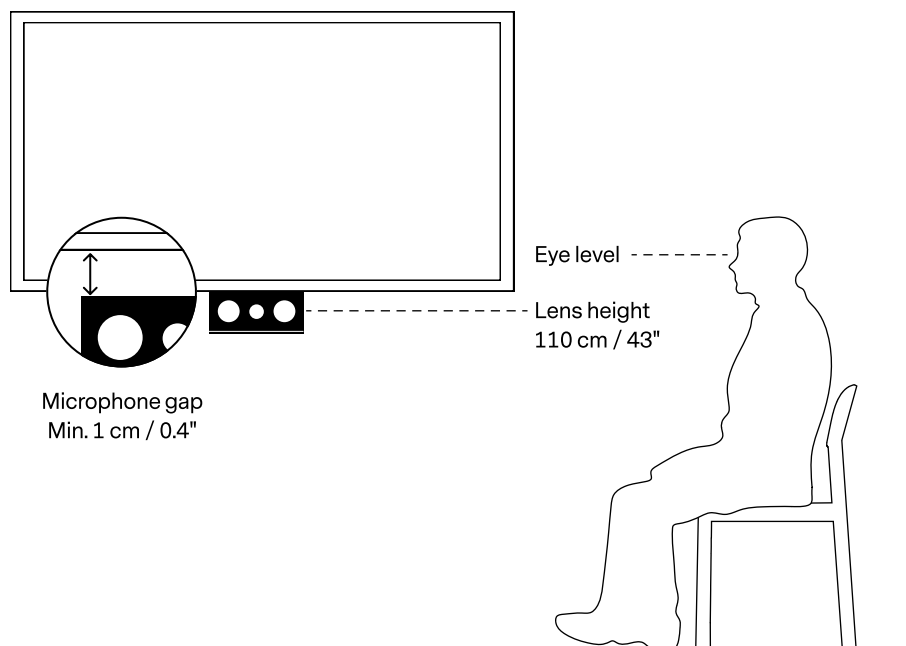

- D** HDMI Cable, 2 m / 6.6'
- E** Power Cable
- F** Power Adapter

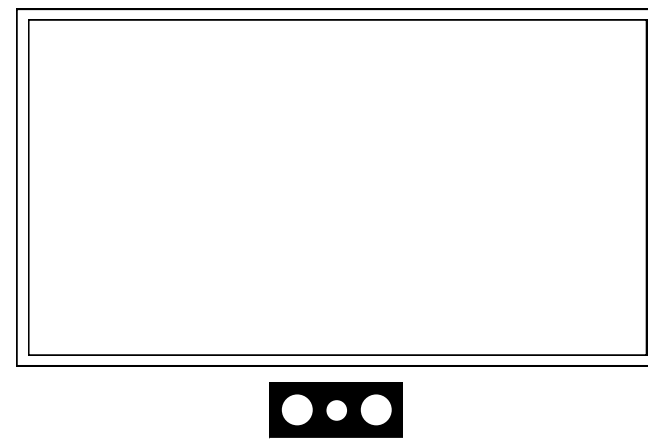

2. Find the best placement

What to consider

- Position close to eye level for natural interaction.
- Recommended lens height above ground: 110 cm / 43".
- Leave a 1 cm / 0.4" top gap for best microphone performance.

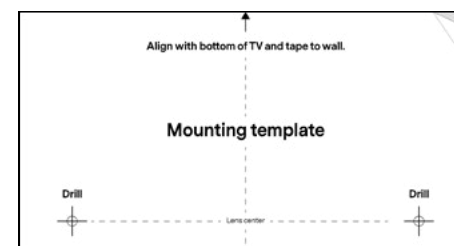

Placement A: Mount on wall

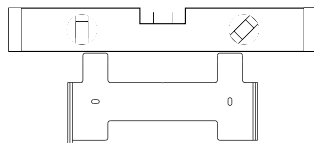

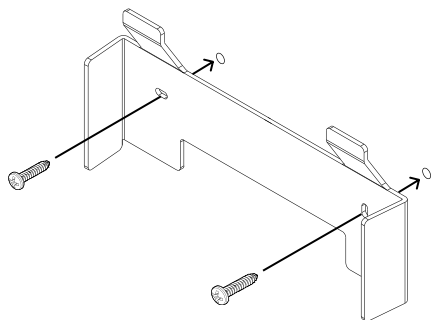

1 Drill holes using the mounting template.

- Align the template with the bottom edge of the TV and ensure it's level.
- Tape it to the wall and drill two holes as marked.

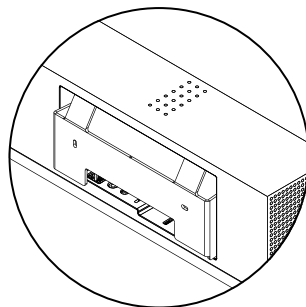

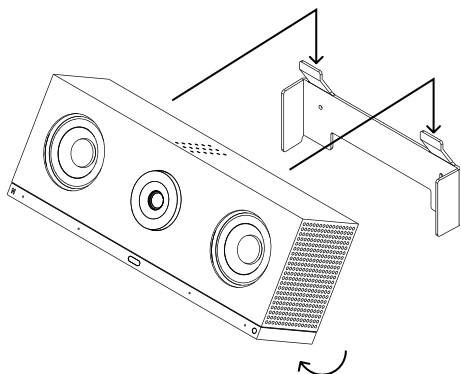

2 Screw wall mount to wall.

 Not included:
2x 4 mm #8 screws

3 Tilt Huddly C1 and slide onto wall mount.

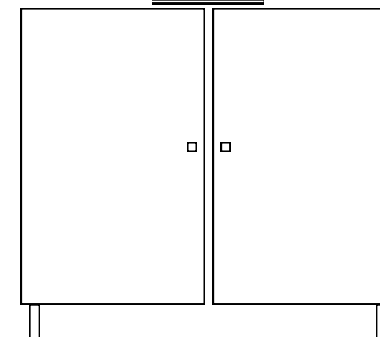

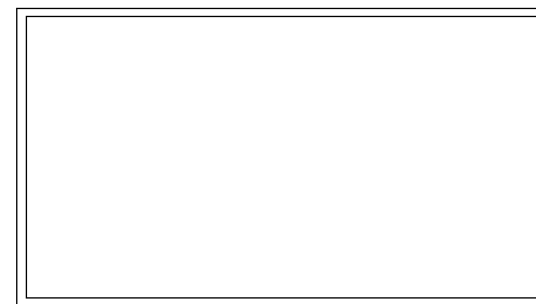

Back panel view

The supplied wall bracket has been evaluated for mounting Huddly C1 at any height. At the installers discretion, C1 must be securely fixed to the wall with appropriate screws. The Kensington lock shall be used to secure C1 in place if it is not mounted in direct conjunction with a TV as illustrated. The Kensington lock shall be of a suitable length to prevent C1 from accidentally coming off the bracket.

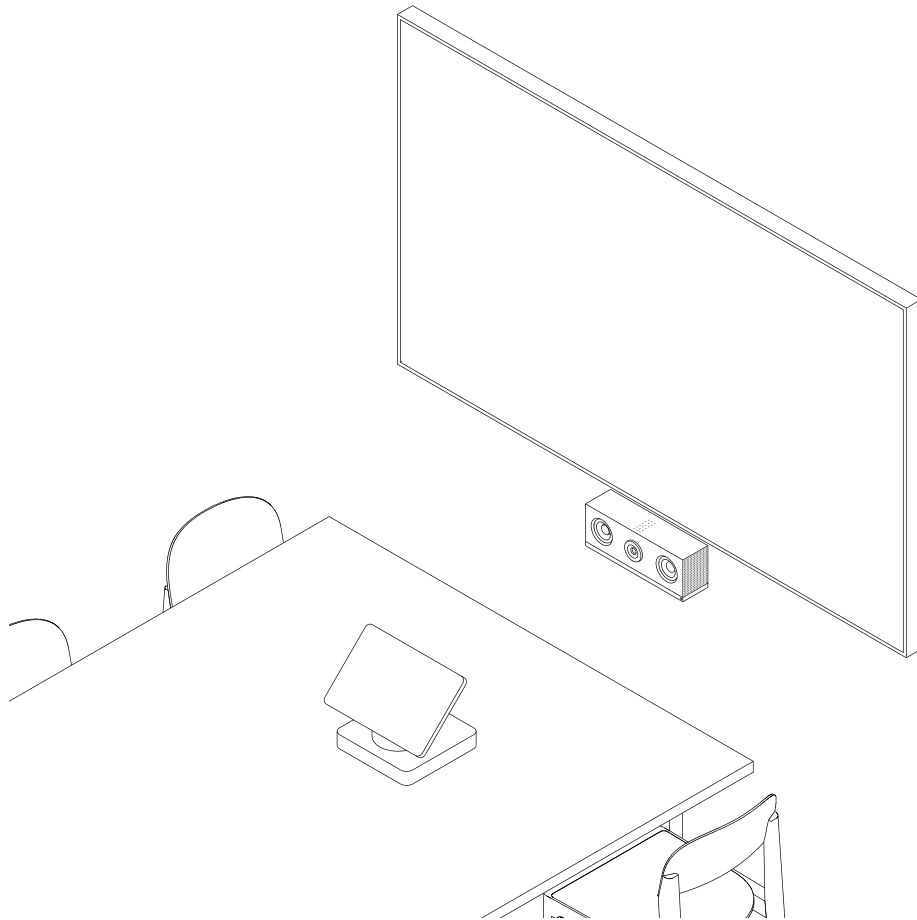

Placement B: Stand on shelf

3. Choose your setup and install

Setup A

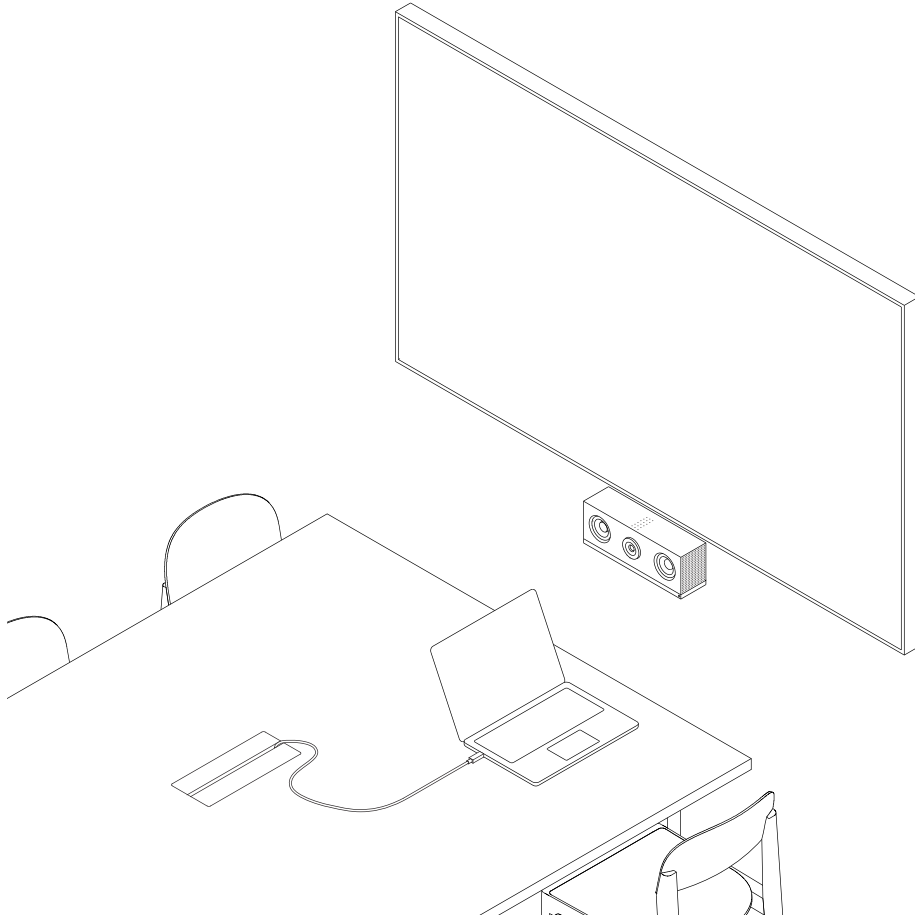

Good to know for installation

- An additional USB cable is needed to connect C1.
- The cable type depends on your specific meeting compute.

Setup B

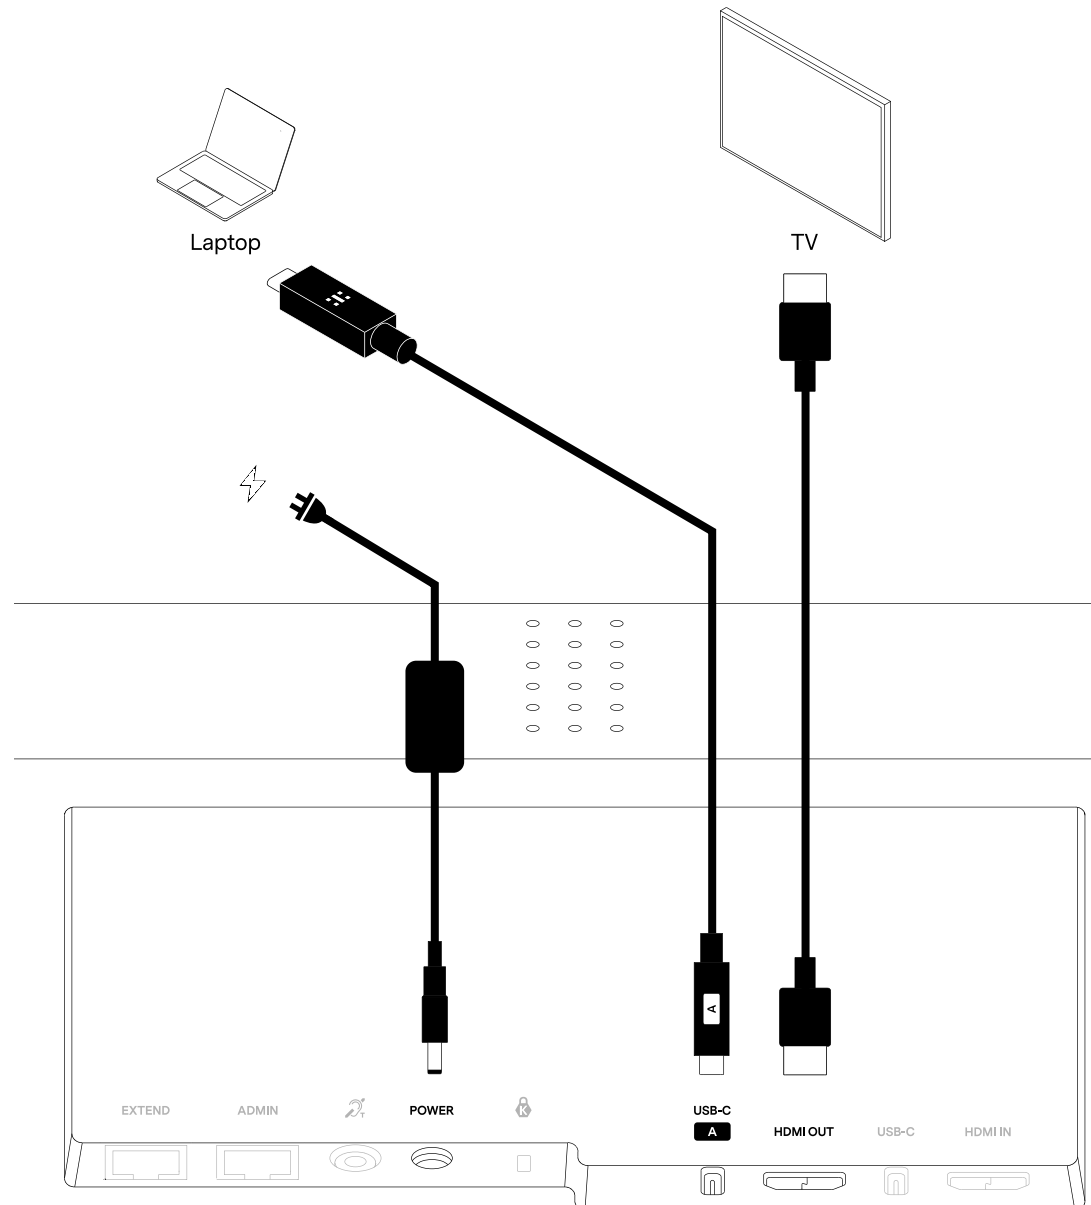

Good to know for installation

- Take the one-way USB-C cable. Plug end **A** into port **A**.

Looking for other setup options?

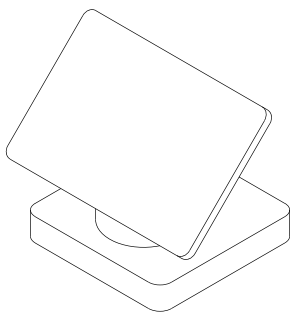

Visit huddly.com/setup/c1/

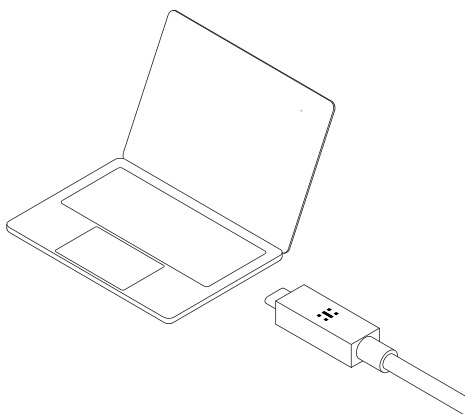

4. Test the setup

1 Join a call to check everything works.

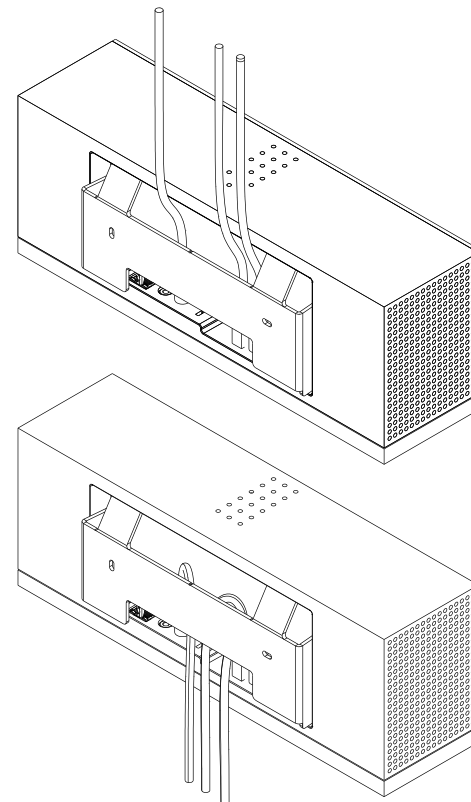

- Setup A: Test audio and video.

- Setup B: Test audio, video, and screensharing. If there are issues, check the cable orientation.

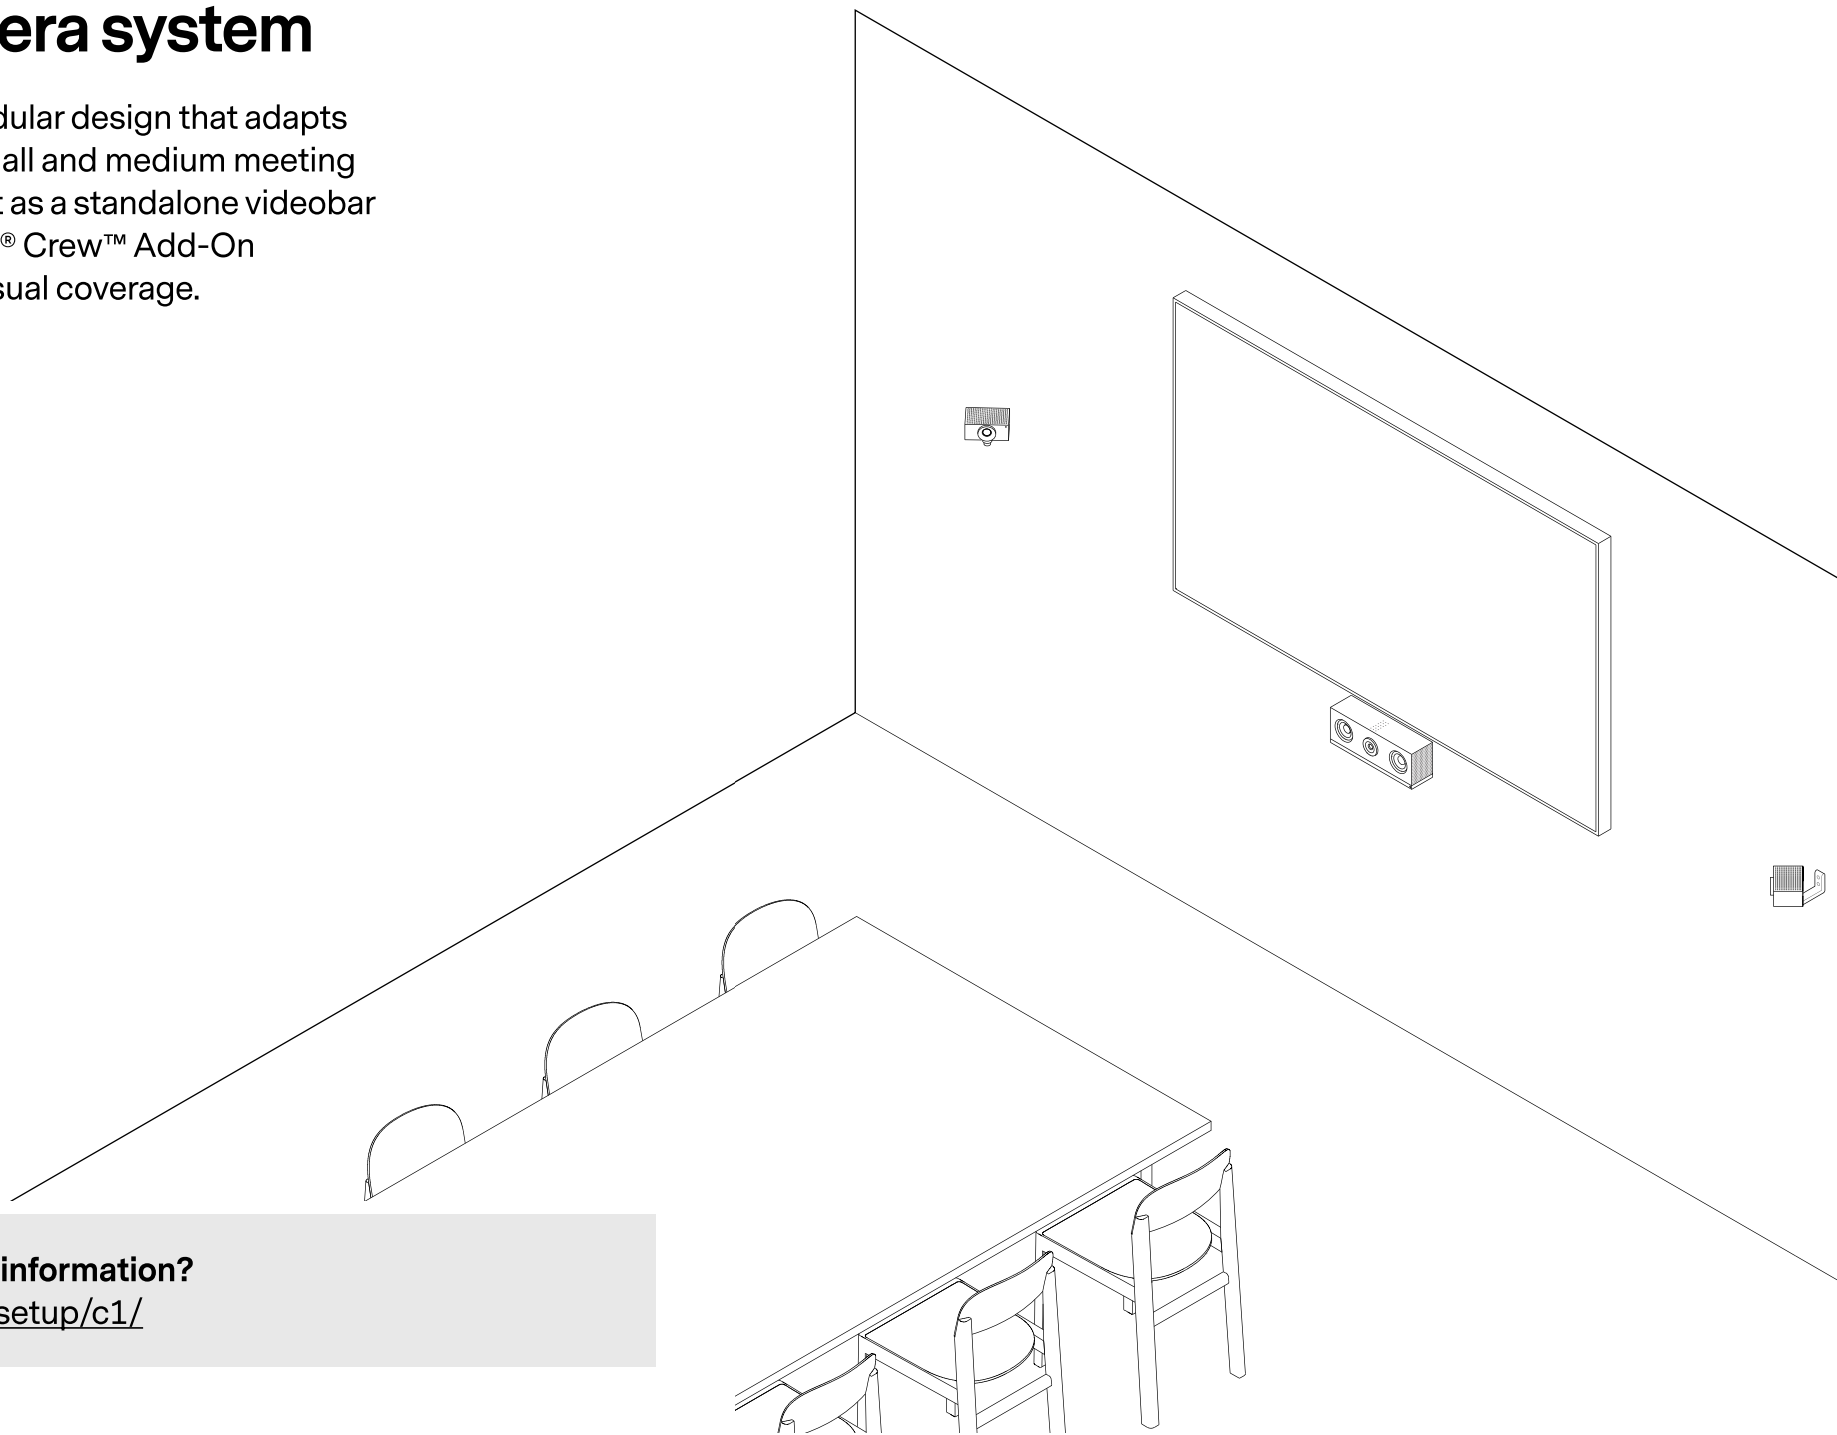

2 Organize and secure the cables.
